DESCRIPTION

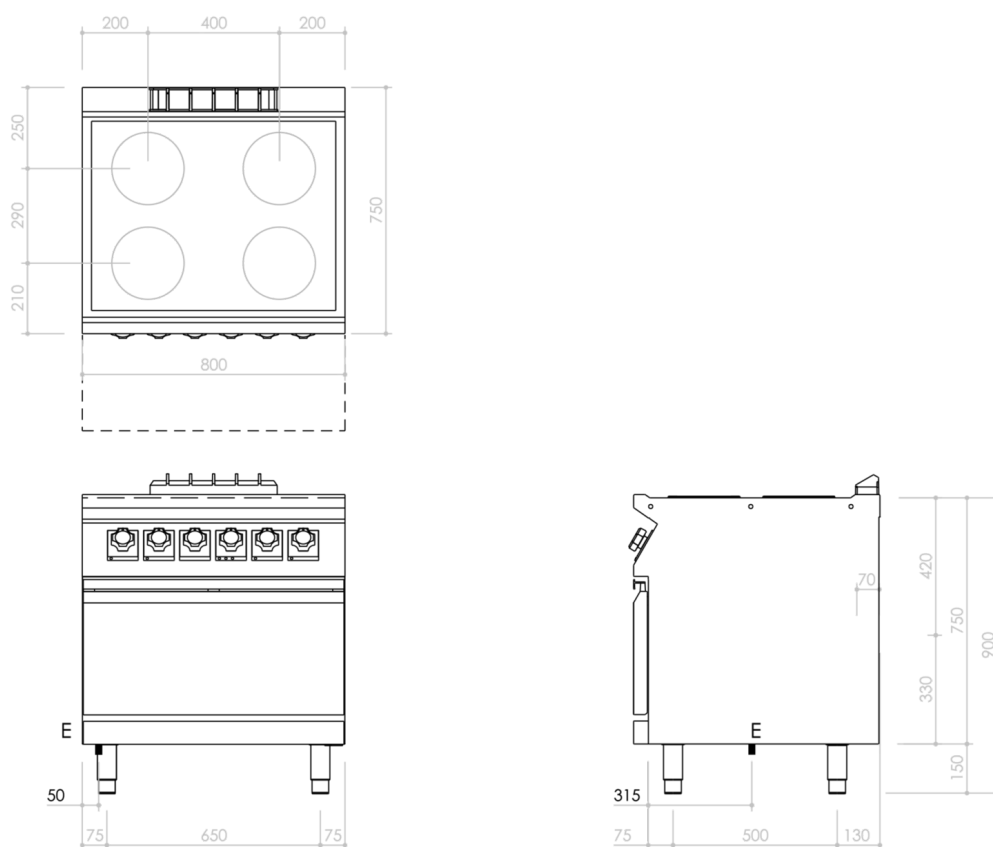

Freestanding electric boiling top, on static electric oven, in AISI 304 stainless steel. 20/10 pressed steel top with anti-spill front edge, designed for flush alignment with hermetic seal supplied. Top designed to accommodate water column accessory. Appliance composed of 4 Ø 220 mm round hotplates in cast-iron, hermetically sealed to the top, each with 2.6 kW output. Hotplates equipped with automatic reset safety thermostat which trips in the event the appliance is switched on without a pan. 7-position selector switch for heat adjustment. Indicator light to show correct operation of the appliance. Ergonomic knobs shaped to prevent water infiltration, equipped with integral indicator lights for instant recognition of operation and temperature. GN 2/I conventional electric oven. Oven heated by independently controlled top and bottom heating elements. Thermostat control providing temperature adjustment from 110°C to 280°C. Stainless steel oven chamber, dimensions 575x654x300h mm. Heavy gauge enamelled steel oven bottom. Oven inner door in stainless steel with labyrinth seal. 4-position selector switch, safety thermostat. Indicator lights indicating correct oven operation. Oven power 6 kW. IPX5 water-resistant rating. Appliance equipped with stainless steel adjustable feet.
